CELLAR SELECT

AUTUMN HARVEST SEMILLON 2020

A range of wines that are exclusive to the Cellar Door in the Hunter Valley.

VINTAGE CONDITIONS

The fruit resource for this wine was limited to the Hunter Ridge Vineyard located on Hermitage Road Pokolbin. For some reason this area avoided contamination from smoke and while yields were restricted due to the severity of the drought the wines made were of high quality.

WINEMAKING

The small berries ideally suit wines of this style as there is some tannin extraction from the skin which helps balance the natural grape sugar in the wine. This style is a traditional style from the Hunter Valley and will age gracefully in the typical manner of Hunter Semillon.

TASTING NOTES

Displaying a ripe melon, honey suckle, talc, orange blossom in aroma. A medium bodied wine with full fruit expression and tactile acidity. The wine exhibits slight flinty characters along with rich floral fruit flavours.

It is a perfect partner to a range of dishes including fresh seafood, chicken pasta, or a summer lunch with friends.
