CELLAR SELECT

PINOT GRIGIO 2021

A range of wines that are exclusive to the Cellar Door in the Hunter Valley.

VINTAGE CONDITIONS

Situated on the Murray River in South Western NSW the Murray Darling provides a warm climate with long sunshine hours, low humidity and has conditions which are ideal for ripening along with low disease pressures.

WINEMAKING

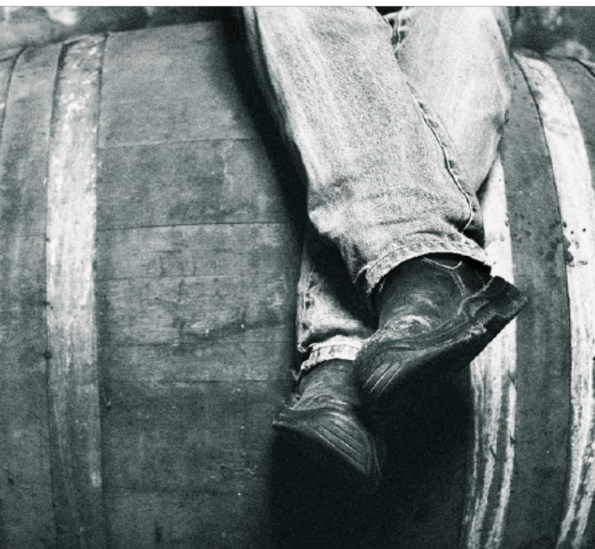

Soils in the Murray Darling region are best described as a calcareous earth which support strong vine growth. The fruit was machine harvested and immediately transported to the Winery for processing.

The fruit was crushed, destemmed and pressed at our Buronga Hill Winery before transportation to our Hunter Valley Winery for Vinification. Upon arrival in the Hunter Valley the juice was inoculated with QA23 yeast and fermentation proceeded for 16 days in a temperature controlled stainless steel vessel. At the completion of fermentation the wine racked off yeast lees and stabilised prior to filtration and bottling.

TASTING NOTES

Pale straw in colour, our Cellar Select Pinot Grigio showcases stone fruit and delicate floral aromas. A medium to full-bodied wine, the palate shows balanced with refreshing acidity this Pinot Grigio displays characters of Pear and stone fruit with a clean citrus finish

This wine pairs well with a range of dishes including light salads, seafood or a plate of antipasto.
